All you need is a PC with Windows 11, 10, 8.1, 8 or 7*, 1 GB RAM and 2 GB of hard disk space. And that's it. * Both the 32 and 64-bit versions, excluding Starter and RT editions. As of now, there are hundreds of antivirus software available for the Windows 10/11 operating systems. However, out of all those, only a few have a free version. Avast Free Antivirus seems to be the best option if we talk about the list of best free antivirus software for Windows 10/11. Compared to other free Antivirus options, the Avast Free edition provides robust security and privacy features. Despite being a free Antivirus program, Avast has many records in its book. It has many excellent lab scores, top on malware protection, web protection, and more. Difference Between Avast Free and Premium Antivirus Well, Avast Free version is good if you want essential protection. Even on basic safety, it blocks and removes threats in real-time. Also, the threat detection rate is excellent. The free version includes the Ransomware Protection feature, Web Shield, WiFi inspector, and a few more options. Avast free and Avast Premium use the same anti-malware engine to detect a virus. So, there's no difference in threat detection on both free and premium. However, with the premium version of Avast, you get some other useful features. Avast Premium version automatically blocks fake website alerts and offers you a firewall, webcam protection, remote access security, email security, File protection, Data Shredder, and more. So, if you are looking for an all-around PC protection and optimization suite, you can try Avast Premium. Features of Avast Free Antivirus The first and foremost feature of Avast Free Antivirus is its robust security system. It not only detects and blocks malware but also helps you get rid of spyware and adware. The Core Shields feature of Avast Free Antivirus offers valuable features like Mail Shield, Behavior Shield, File Shield, and Web Shield. These features were meant to avoid unauthorized app access to your files & folders. The Virus Chest feature of Avast Free Antivirus locks all detected threats. The Virus Chest allows you to review the detected files. Avast Free Antivirus free version also has a WiFi inspector that scans for vulnerabilities and potential strangers connected to your network. The free version also includes a full-fledged Software updaters that automatically scans and updates all outdated apps on your device. The Ransomware shield feature of Avast Free edition stops ransomware and untrusted apps from changing, deleting, or holding your photos and files hostage.
